

Goff's Welding Curtain Walls

Separate welding areas and protect against harmful UV light & fumes.

Create safer working areas shielded from UV light, sparks, and fumes using Goff's Welding Curtain Walls.

Facility wide separation for safer work environments.

Implementing curtain walls into your open space can boost productivity by separating tasks. Adding Goff's Welding Curtain Walls takes that boost a step further by providing safety from UV light, sparks, and fumes from the rest of your facility. **Whether you're creating a standalone 4-sided welding booth, or just a single curtain to protect a welding area, Goff's Welding Curtain Walls are designed to make space and task separation easy, maximizing safety and productivity in your space.**

Separate work areas to increase productivity.

Whether you're separating work areas, or building a complete 4-sided area, our curtains are custom made and attach together with velcro to maintain complete space separation.

Protection against welding UV light & fumes.

Welding Curtain Walls contain and protect against welding fumes, contaminants and sparks while blocking 100% of UV light. Reduce injuries and maximize employee satisfaction by creating safe work stations and improved work environments.

Flexible design made custom for your facility.

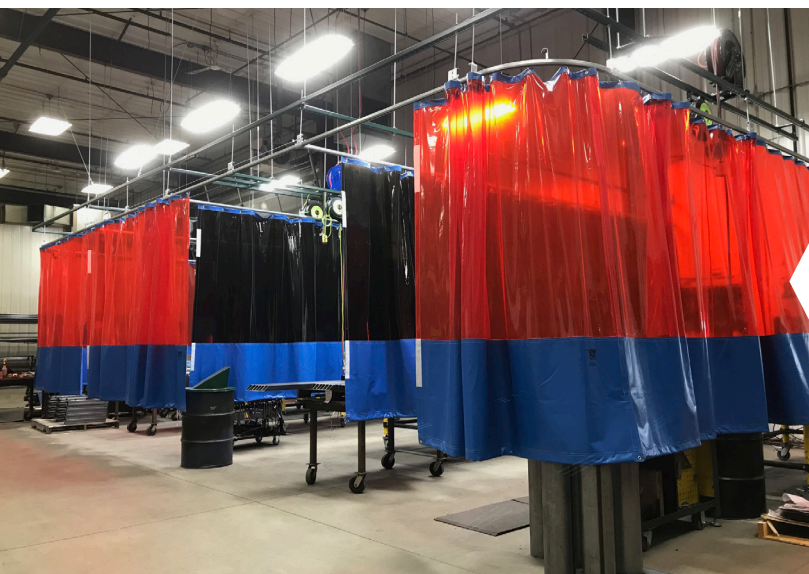

Supported by our modular track, our curtain wall systems can be reconfigured or added to later to continue optimizing your space, even as your business and processes change.

Mounting hardware is also available for increased flexibility & efficiency.

Goff's Welding Curtain Walls are available with track & hardware to fit your dimensions & layout, with the ability to be reconfigured as needed, providing smooth, easy movement of all curtain systems for years to come.

- **Track & hardware is built with durable heavy-duty 16 gauge galvanized steel.**
- **Goff's track & connector system** allows for multiple mounting methods including suspended from the ceiling, face mounted on the wall, and floor supported.

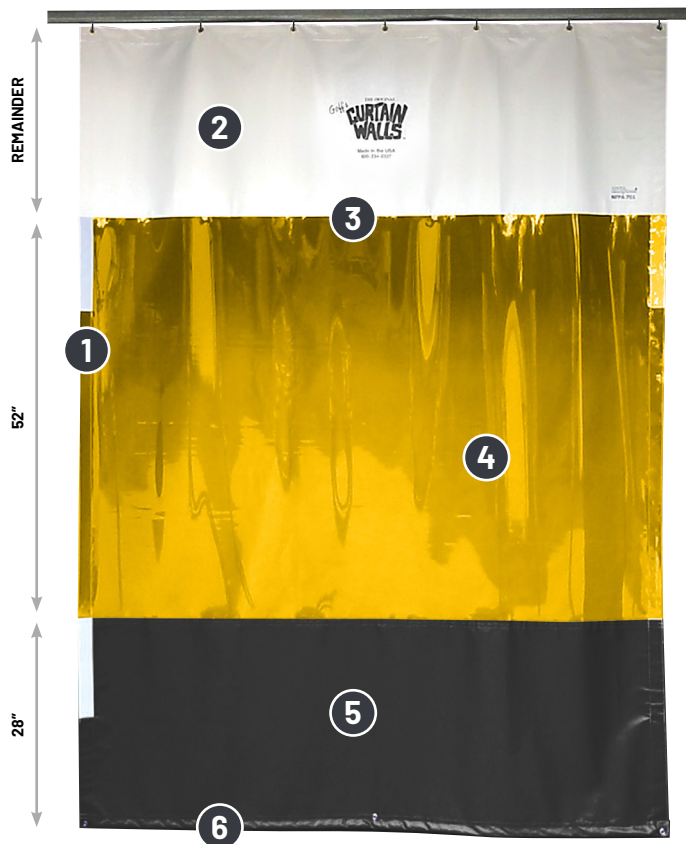

The flexible welding solution:

No matter where your welding area is, Goff's Welding Curtain Walls are the ultimate solution to providing protection and separation from the rest of your facility, while allowing for future change when needed. Whether you need to add on to your system as your business grows, or completely relocate the curtain walls, Goff's products allow for future change to continue serving you for years to come.

What you need, where you need it.

Goff's Welding Curtain Walls are manufactured in the USA. Our curtain wall system can be made up to 100' high in any width, and come standard with these premium features:

1. **2" industrial strength velcro sewn in edges** to join adjacent curtain walls to one another.
2. **Upper curtain panel provides a barrier** between your spaces for the remainder of the height.
3. **All seams are double lock stitched**, maximizing the durability of your industrial curtain wall.
4. **Weld view window section blocking 100% of harmful UV light** from either side.
5. **Lower curtain panel provides a barrier** from window down to your floor to separate areas.
6. **Chain weight sewn in lower pocket** keeps your curtain wall taut and straight.

Filter Panel:

Easily removable & replaceable filter panels available in 2' x 4' or 4' x 4' sizes, reinforced with a nylon scrim pattern.

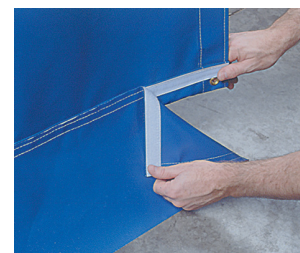

Strip Door:

Add an easy pass-through strip door within your curtain wall while maintaining separation, available in various sizes.

Upper Valance Panel:

Create a seal between your hanging track and ceiling to maximize spatial separation. Great for sloped ceilings!

Floor Sweep:

6" replaceable vinyl piece to seal the gap between your curtain wall and your floor. Perfect for uneven floors!

Wind Ties

Secure your curtain walls in cases where wind or negative pressure is present. Available in standard and heavy duty styles.

Cleaner & Shield All®:

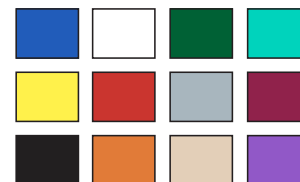

Easily & safely clean your entire curtain wall with our Cleaner, and provide a layer of protection with our Shield All coating.

Custom Branding

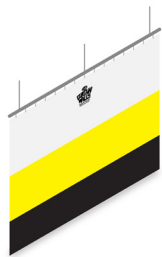

Personalize your curtain wall with company logos, slogans, or building area labels.

14 oz Vinyl Color Options:

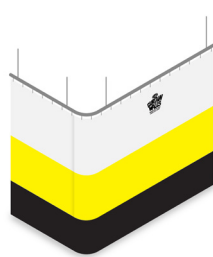

14 mil Weld view Color Options:

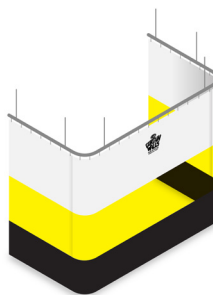

Single Curtain:

Use a single Welding Curtain Wall for instant lateral separation between tasks.

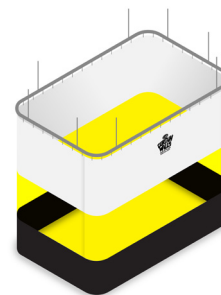

Two-Sided Curtain:

Create an L-shaped partition to segment off a corner of your building as separate space.

Three-Sided Curtain:

Add a 3 sided curtain wall to one of your permanent building walls to create a private room.

Four-Sided Curtain:

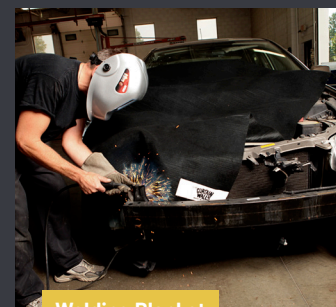

Build an entirely standalone room using a 4-sided curtain wall for modular space design.

Welding Safety That Fits Your Space:

Create mobile work areas with Goff's Welding Screens or drape Goff's Welding Blanket over the object or equipment you're working on to provide protection from welding sparks, molten, hot debris and more. Whatever your welding task requires, Goff's has the solution to keep your employees safe and your work flow efficient.
